ATWELL HAD VERY PLEASING AUDIENCE

Republican Nominee for Governor Was Given Close Attention During Speech

Hon. Wm. H. Atwell of Dallas, republican nominee for governor, arrived in Paris over the Texas Midland yesterday from Greenville, where he spoke Thursday night. Some of the local republicans were under the impression that he would arrive over the Santa Fe and were at the union depot to meet him, but he had already come in.

He was a guest at the luncheon of the Rotary club, and last night spoke to a good-sized audience in the district courtroom, there being several ladies in the audience. The Farm Labor Union had arranged to have a meeting in the courtroom but they took a recess until after the speaking, when it resumed its session.

Mr. Atwell began about 8 o'clock and spoke a little more than an hour. The audience represented several shades of politics, but the speaker made a good impression among all present and was liberally applauded throughout, the applause being general.

He was introduced by R. E. Johnson, a well known local attorney, who thanked the Farm Labor Union for suspending its meeting. He said he considered that they and the republicans are working to the same end. He paid a tribute to the speaker as being an able man of State prominence and well known Nationally, and introduced him as the next governor of Texas.

The announcement was greeted with applause, and the speaker said that he would be satisfied if he only succeeded in reducing the democratic majority.

He will address the students of Paris Commercial College at 8:30 o'clock this morning by invitation.

In his address last night Mr. Atwell spoke in substance partly as follows:

After my return from Europe I accepted the nomination in the following words: "Texas is active, politically, but this activity does not seem to mean progress for the people. It is like the activity of a man who is having an epileptic fit, or like the activity of the automobile engine which starts noisily and violently, but stops when the clutch is applied."

What we really need is less activity that makes enemies of friends and more activity that will insure return to representative government, a return to work, that solvent of every problem; a return of reverence for the law; avoidance of class consciousness and class prejudice; an universal love for State and Nation; some virile laws for the encouragement of Texas factories; a rigid economy in State government and a "no" that means "no" and a "yes" that means "yes" in the people's business.

To help get these attitudes and things I have concluded to accept the nomination. I wish I might hope for election.

In order that I may assist you in arriving at a conclusion as to whether you will cast your vote for me, or for the nominee of another party, I wish to say:

First. If I were Governor of Texas I would make implicit obedience to my oath to support and be faithful to the Constitution of the United States the signal standard of my official life. No guarantee in the bill of rights should become obsolete, nor be ignored. No avoidance of constitutional government should be permitted. And no official disregard of the fundamental law as contained in the constitution would be suffered.

Second. If I were Governor of Texas, I should do my utmost to so correlate and perfect our public school system, with persuasion and statute, as to insure the attendance of every child.

Stirs Officials in Murder Case

When New Brunswick (N. J.) officials said they had exhausted all clues in the murder of the Rev. Edward Wheeler Hall and Mrs. Eleanor Reinhardt Mills, his choir leader, vigorous action by Charlotte Mills, 16 (above), daughter of the slain woman, stirred local and state officials to action that has uncovered fresh details.

MILLIONS WILL BE NEEDED IN RELIEF

Archie Roosevelt Chosen Executive Secretary for the Near East Work

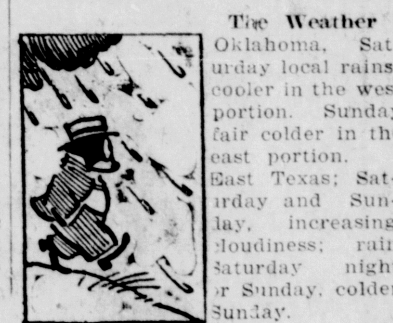

(Associated Press) NEW YORK, Oct. 13.—Archie Roosevelt, son of the late Theodore Roosevelt, and vice president of the Union Petroleum Company, today was named secretary of President Harding's Near East Relief emergency committee which met here to formulate plans for a national campaign for funds.

Mr. Roosevelt, whose services have been loaned by the petroleum company until the relief work is completed is on his way to New York from Texas, Will H. Hays, chairman of the committee said.

President Harding in a letter to the committee said: "As the people of America have given, and have given generously in every great crisis that has occurred in China, Russia and India, and all parts of the world, so they must give a great sum now—millions of dollars—if the lives of these victims are to be saved. No appeal of real need from whatever part of the world has ever been made in vain to America."

A COSTLY GIN WAS BURNED AT BELLS

DALLAS, Oct. 13.—A loss of \$30,000 resulted from the burning of the cotton gin at Bells, Grayson county, today. The gin was completely destroyed with a quantity of cotton. Origin of the fire is unknown.

GRABLE OUSTED BY THE RAIL UNION

Forecast That There Is to Be a New Demand Made for Better Conditions

(Associated Press) DETROIT, Oct. 13.—Overthrow of E. F. Grable of Detroit as grand president of the International Brotherhood of Maintenance of Way Employees and Railway Shop Laborers, and announcement by his successor, F. H. Fljosedal of Dauphin, Manitoba, that a new demand "for improved working conditions and a living wage" would be made by the organization upon the United States Railway Labor Board, marked today's session of the Brotherhood's triennial convention here.

President Grable, credited with having averted a strike of the 400,000 railway maintenance men of the country last summer after they had voted overwhelmingly in favor of joining the shopmen's walkout, was defeated by more than 2,000 votes out of a total of approximately 86,000, each delegate casting as many votes as there were members in the local union he represented.

The new president and other officers will be installed before the convention ends, probably early next week.

In a statement made through his personal representative, Frank Pinson of Detroit, the president-elect declared his opposition to a strike now at any time in the future, but announced the "union membership might be prepared to walk out if improved working conditions and adequate wage increases were not forthcoming."

Elmer E. Milligan of Mount Morris, N. Y., was elected secretary of the Brotherhood, defeating S. J. Pegg of Detroit.

OKLAHOMA BANDITS HAD ON DRESSES

(Associated Press) OSAGE, Okla., Oct. 13.—Five bandits dressed as women, held up the First State Bank here this afternoon and escaped with \$188 in cash.

A posse numbering more than 150 set out in pursuit in motor cars tonight but they had not overtaken the robbers.

The two bandits dressed as women entered the bank with a companion and looted the cashier's cage while two others waited on the outside in motor cars. The men were frightened off before they could force the cashier to open the vault.

U. S. OWNS BUILDING IN CITY OF MEXICO

(Associated Press) WASHINGTON, Oct. 13.—Inquiry at the state department today brought the statement that the recent purchase by the United States of an embassy building in the city of Mexico had no relation whatever to the question of recognition of the Mexican government. The purchase was made, it was said, under an allotment of funds that were made available by congress a year ago for the purchase of embassy quarters in four capitals.

MUST SURRENDER RIGHT TO STRIKE

(Associated Press) CLEVELAND, Oct. 13.—Railroad labor must surrender the right to strike if the railway situation is to be stabilized and "the rights of the people to uninterrupted transportation service permanently secured," Elisha J. Lee, vice president of the Pennsylvania lines, declared in an address tonight at the annual banquet of the American Mining Congress.

CHAMBERLAIN IS LOYAL TO GEORGE

Denunciation of English Labor Party May Not Be Followed By Premier

(Associated Press) LONDON, Oct. 13.—Curiosity and speculation tonight revolved upon whether the speech delivered today at Birmingham by Austen Chamberlain, government leader in the house of commons, may be taken as an indication of the line that the premier will assume in his address tomorrow at Manchester.

The speech revealed Mr. Chamberlain as still a convinced and devoted coalitionist and loyally attached to Premier Lloyd George.

Political circles consider that perhaps the most notable point in Mr. Chamberlain's speech was the plain intimation to his party of the danger of the labor government coming into power accompanied by the dark shadow of direct action, a capital levy and other similar planks in the labor platform.

His allusion to the laborites is regarded as susceptible of being interpreted in two ways, first, as the line of policy for the coalition in the event of an appeal to the country; and second, as a mere hint to Mr. Chamberlain's own party, which is now declared to be dangerously split into supporters and antagonists of Mr. Lloyd George and a warning to them to close their ranks and still support the coalition.

The premier, on previous occasions when confronted with difficulty, has represented the labor party as a bolshevist organization against which the country must make a firm stand; but critics declare he also has seemed to realize this as a rather risky policy and generally has drawn back from pursuing it to its logical conclusions.

On general lines Mr. Chamberlain's speech is considered to have been the strongest possible plea for a continuance of the coalition if not in its existing form.

His reference to the labor party was promptly met by the labor leaders. John R. Clynes, in an address delivered tonight, said with regards to the address of the government leader: "Bolshevism as produced in Russia by the suppression of all popular liberties and rebellion can be fomented in this country by a minister seeking to put the labor party outside the pale of constitutional action."

Mr. Clynes complained that Mr. Chamberlain's strictures deepen class antagonism and "render further disservice to the throne and constitutional practice." He added that the labor party "is as constitutional a political body as any other."

In political quarters Mr. Chamberlain's speech is considered in effect to have thrown very little light upon the situation, because it was practically unknown beforehand that he would support the coalition and the country, therefore, still must look to the premier's pronouncement at Manchester for real light on coming events.

NEW HIGH POINT COTTON PRICES

Southern Selling and Realizing Failed to Hold Down the Market

(Associated Press) NEW YORK, Oct. 13.—The cotton market made new high ground for the present movement during today's trading with December contracts selling up to 22.37 on an active demand, much of which was attributed to the trade. That delivery closed at 22.32 with the general market closing very steady at advances of 45 to 53 points.

The market opened firm at an advance of 10 to 17 points on the firm showing of Liverpool over the Columbus Day adjournment and continued bullish reports from the good markets.

The advance met some Southern selling and considerable realizing by Wall Street and Western longs. These offerings were absorbed on reactions of a comparatively few points, however, with the market showing increasing strength and activity during the early afternoon.

Covering or replacing by sellers contributed to the afternoon advance which extended to 22.26 for January and 22.33 for March or 18 to 51 points net higher on the active positions. Last prices were only a few points off from the best under realizing.

There were reports that Lancashire spinners were considering an extension of curtailment, but Liverpool cables reported a better trade demand and also said there was a better demand for goods in Lancashire. Port receipts today 44,112. United States port stocks 346,856. Exports 19,967, making 374,823 so far this season.

MORE MENNONITES TO CHARGE MEXICO

(Associated Press) MOOSEJAW, Sask., Oct. 13.—Another trek of Mennonites to Mexico will commence about the end of this month when approximately 26 freight cars of settlers' effects and 180 Mennonites, including whole families will leave the Herbert district for El Paso, Texas and will cross the border at Eagle Pass, it was announced today.

WOMAN FLYER WAS CRUSHED TO DEATH

Final Day of Practice Before Undertaking a Professional Career

(Associated Press) CLEVELAND, Oct. 13.—Dangling in mid-air, unable to climb back to the airplane and afraid to trust to a drop into a lake below, Miss Eva Moss, Chattanooga stunt flier, this afternoon was fatally crushed when the aviator was forced to descend.

Poaching the fact that today was Friday and the date the 13th, Miss Moss went up for an exhibition flight and had clambored out on the top wing of the plane, let herself down a 20 foot rope ladder where she was suspended in mid-air by her teeth.

When the time came for the young woman to climb back to the airplane, probably by reason of her exhaustion or through becoming entangled in the rope of the ladder, she was unable to do so. The pilot, seeing her predicament, flew out over a lake and circled about as low as possible at the same time calling and signaling for her to jump into the water.

Whether through fear or inability to do this is unknown, but she remained clutching at the end of the rope.

In the meantime the mechanician observing the tragedy which was being enacted in the air, hurriedly summoned an ambulance and physicians which were waiting when the plane finally descended.

In landing the young lady was thrown against the ground with a terrific impact after which she was dragged for fifty or a hundred feet before the airplane came to a stop. She lived for twenty minutes but never gained consciousness.

Aviator Peebles, with whom Miss Moss was flying, is heartbroken over the tragedy and his wife is prostrated. He has announced his intention of never again flying.

Miss Moss has been here for thirty days training for stunt flying and Friday was to have been her final day of practice before undertaking professional flights.

WOMAN MURDERED ON GALVESTON STREET

(Associated Press) GALVESTON, Texas, Oct. 13.—Mrs. G. L. Williams, about 24 years old was shot and fatally wounded while walking along the street in the eastern part of the city tonight. She died three hours later at the John Sealy hospital.

Police are searching for her husband, who recently returned from Oklahoma, after having gone about three weeks ago. Mrs. Williams' 2 year old daughter was at her side when the shooting occurred.

TRIED TO STEAL A KISS; FUNERAL ARRANGEMENTS

(Associated Press) SALT LAKE, Oct. 13.—An attempt to steal a kiss from the wife of Joseph Datta at Bingham, Utah, last night, ended in the fatal shooting of Tony Ferrera. Data is in jail charged with murder.

HONOLULU STILL A FIERY FURNACE

Passengers Are All Aboard the Transport Thomas and Will Be in Port Sunday

(Associated Press) SAN FRANCISCO, Oct. 13.—The veteran United States army transport Thomas is steaming tonight toward the Pacific ocean toward San Francisco, with 261 passengers and members of the crew of the liner City of Honolulu, which is drifting, a burned out hulk, on the sea lanes to the southwest.

By the closest figuring that can be arrived at by army transport service officials here, the Thomas should arrive Sunday.

Word from the big transport to the Associated Press today by the wireless service of the Federal Telegraph company was to the effect that the passengers were in good spirits and that they evidently showed no fear when the fire swept around them on the great liner and forced them to be thrust into the sea in small boats to await what proved to be a kindly fate.

The tons of water poured into the Honolulu's blazing compartments caused her to list heavily to port, according to word from the Thomas, swinging the stricken vessel's small boats outboard on the port side and greatly increasing the rescue hazard. Later the great vessel righted herself so that the boats could be lowered with greater facility.

Word from the West Farallon tonight was that the Honolulu was still burning. Day reports told of the caving in of her superstructure, this great work of destruction starting first with the collapsing of one of her big stacks and an aftermath by the flames.

The ocean swells sent up clouds of steam as they leaped against her blistering hot sides, but she continued to ride the sea easily and showed no indications that the flames which raged her would send her to the bottom.

The blackened hull was much too hot to be approached today, according to a radio from the West Farallon to her agents, Struthers & Barry, here.

The rescue boat was told to "stand by" until it could be determined whether she should tow it to a mainland port or merely wait until salvage vessels arrived. On account of the Honolulu having been changed by the fire from a beautiful, swift liner to that nautical hazard known as "a menace to navigation," she must be closely watched.

All messages received here said that the work of rescue was as effective as though it had been consistently rehearsed. According to a wireless message from the Thomas, the greatest hardship suffered by the passengers was their experience of seven hours on the open sea while the Thomas, the West Farallon and the Enterprise were steaming toward them.

The probable cause of the fire was given as defective wiring in the second cabin, according to the message from the Thomas. The usual investigation by the United States Steamboat Inspection service is expected to go into this fully.

SIMEON HAYS WAS CONVICTED SECOND TIME

(Associated Press) TEXARKANA, Texas, Oct. 13.—Simeon Hays was today sentenced to 20 years in the Texas penitentiary after conviction on a murder charge in the Cass county district court at Linden, the case having been transferred from Bowie county, where Hays had, previously been convicted and sentenced to 55 years.

The decision was reversed by the criminal appeals court and the case remanded for a new trial.

Hays was accused of the killing of Tom Smith in Bowie county 2 years ago. Tom Hayes, brother of Simeon, and Boy Barnes, both convicted of the same murder, are now serving terms of 40 and 99 years respectively.

WEEK WAS GOOD FOR THE TRADE

Marked Strength in Building Operations Throughout the Country

(Associated Press) NEW YORK, Oct. 13.—Bradstreet's tomorrow will say: Increase of activity with a marked increase of strength in prices, especially of all textile fabrics, improved country buying at large western distributive points; the arrival of long expected cold weather with its stimulating effect on retail trade, particularly in the North and the West, which sent reports of department store trading exceeding a year ago.

Continued growth in the volume of railroad business, an important influence in this direction, being close to record coal loadings this week, and very active building with subsequent good effects on buying of lumber, hardware and materials are notable among the many favorable features coming to hand this week.

The main unfavorable element as regards domestic trade is the evident growing congestion of car supply which is delaying lumber shipments from the Pacific coast and the South, finished steel from mills, coal from the mines, and crops from the farm to the market.

NOLLEY'S COUNSEL ENTERED CONFESSION

(Associated Press) EASTLAND, Texas, Oct. 13.—The jury in the murder case against Sheriff Sam Nolley of Eastland county late today returned a verdict finding the defendant guilty of "gross negligence in the discharge of his official duties" and recommended his removal from office. The verdict was returned upon instructions from the court after the counsel for Nolley had stated that the evidence against their client was overwhelming.

DEFENSE OF OUR FRIENDS.

In a talk before the Rotary club Arthur Caddel stated it as the duty of each of us to defend our friends and neighbors against the tongue of evil repute.

Mr. Caddel stated a truth; but there is probably no other one thing that most of us do not do as consistently as that of defending our friends and neighbors. In fact, we often add a few details and items when the gossip gets going.

Slurring remarks, attacks upon credit or character we accept—and even though we do not repeat them we offer no defense for the absent one. We may know the assertion made to be untrue—but we do not do the manly thing and make the statement. We just let it go.

The sowers of poison seed are encouraged by the fact that they do not often run into denial or rebuke. They continue their campaign of lies or half-lies (for it is not proper to describe a thing as half-truth, there being no such thing) until they have accomplished their purpose of bringing ruin, shame, disgrace or discomfort to those whom they malign.

There has been and is much of this stuff going on in Paris right now.

Not only are characters and credits attacked; but there is a prying spirit abroad which makes for idle gossip; for nasty little insinuations, for mean and malevolent malice; and men and women who are truly above reproach are attacked with the tongue of slander with an abandon which is distressing.

If your friend or your neighbor is attacked, defend them. It is the right thing to do.

SERVICE AND BUSINESS.

Etymology is an excellent study. For instance, analyze the word Service, about which we hear so much in these days; and you will find that it conceals "rice" as the terminal letters.

Dissect "business," to which the service is often applied, and you will find that it conceals "sin" in its midst.

With vice and sin in service and business, it would appear to be the large duty of the up to date business man to overcome the setting. It has been demonstrated that it can be done.

PARIS ROTARY CLUB.
Member Rotary International

There was genuine regret in the Rotary club Friday when it was announced that Walter G. Moore had resigned and removed to Oklahoma City.

Mr. Moore was one of the principals interested in the organization of the Rotary club of Paris and was the first president of the club.

He returns to Oklahoma City to establish a branch of the Collins & Moore business; and no doubt the business men of that city will be greatly pleased that he is returning for the reason that he has ever been one of the leaders here; has had his part in the progress of Paris and in the extension of the influence of Rotary.

Mr. Moore will visit Paris from time to time, of course; and there will be always a warm welcome for him not only in the Rotary club but in all circles.

Thierry and to the American cemetery there—the place where he buried some of the men who achieved the "miracle of the Marne."

Arthur Caddel

Caddel was introduced by Will Lightfoot, acting chairman, as a man who needs about four minutes of notice; that he was to be called upon; and then Caddel showed that it was true. He made one of the finest service talks heard in the Rotary club in many a day.

He prefaced his talk with the

statement that he had not given much attention to Rotary in other days; but on the train one day he read a page ad in an Indianapolis paper setting forth the things for which Rotary stands; and he became impressed with the wonderful possibilities which lie with men having such a standard.

In other days he was so fortunate as to be invited to become a Rotarian and he accepted gladly and felt that he was fortunate.

He said that Service is an abused word; but that it covers great virtues and should be carefully studied. He thought that a word of equal meaning and one which truly exemplifies Service is Loyalty. He expanded this thought to show that Loyalty meant true friendship and true neighborliness. Loyalty is the very essence, spirit and life of Service.

Every good citizen of the community should be regarded as a friend and should be protected against the insinuations and the gossip which are so often aimed at men and women in malice or in idleness. Credit of many business men is attacked at first through maliciousness and afterward through thoughtless repetition of untrue stories and of insinuations which have no foundation.

Every Rotarian should do what he can to suppress idle talk and gossip; and should come to the defense of his friends and his neighbors when they are attacked. Much of it can be put a stop to if there be defense from the idle gossip or the malicious slander.

Men grow large through being served by others; men grow big only through the service they render unto others.

The Music

Prof. Shaw didn't have much warning; but he is resourceful and the good singers of Paris think a lot of Prof. So when he introduced Mrs. Frean Grimes and Miss Lois Mayer as the soloists for the day there was much applause. Both ladies are prime favors with the Rotarians and they were rewarded by enthusiastic applause when they gave their songs; and each was asked (and consented) to give an encore number, which was even more warmly received.

The Prize

Bob Hurt gave the prize, a razor strop. Sam Long was the first name called; but Sam had left the room in the meantime and missed it; so it went to Rev. Harold Hennessey, who uses a safety razor but who is in the habit of getting about one-third of the prizes bestowed in the Rotary club since Scott Thompson took his name out of the box.

The Barton Bedtime Stories

Copyright 1922 by Associated Newspapers

It's more fun to go hunting than it is to ride home after all the fun is over and done. 'Cause you're sure to be tired, and you're likely to be wet, especially when you've been floundering round in the mud of the Big Marsh. And you might be kind of cold when that sharp old wind comes up at sundown. But you don't let on! Not if you are Louie Thomsen and Tommy Peele.

They began to sing songs to keep their teeth from chattering. Pretty soon big cousin Sandy joined in with his voice that roared like the north wind. And the horses pricked up their ears and cantered along in time to the tune. The Deep Woods hadn't heard so much noise since the cloudburst that helped the Wicked Little Brook play its tricks way along last spring when the little boys went camping. Once they just had to stop because Trailer the Hound tuned up in his squeal whine, trying to sing the high notes, and they 'most choked from laughing at him. Then they heard a cr-rash. Was that a tree falling?

They didn't go far before they heard another. Cr-rash! Crack! This time they stopped their song, right in the middle and listened. But the Deep Woods were still as still. Only the dogs could hear a faint gnaw, gnaw, gnawing, with a s-s-scritch. It was just as if the bark were being stripped off a tight-skinned sapling. Trailer pricked up an ear. But Watch growled softly. "Sh! Don't pay any attention. I want my supper, and you know those two little boys!"

Trailer did know thim. And he

wanted his supper, too. So he kept still as a mouse. Only it wasn't long before they had to pull up to help Sandy's roan mare over the tree that had fallen across the Deep Woods path beside the Duckling's Oak. (You know that was the time they almost caught Tad Coon misbehaving himself—but he foiled them). Then, cr-rash! The echoes woke for the third time.

"We've heard three trees fall down," exclaimed Tommy Peele. "All in the same place. One might just happen. Two is certainly queer, but three—that means something is going on. Let's go and see."

But they didn't—not right then for Redskin was as hungry as the dogs. He just clinched his teeth on his bit and raced for home, and the little boys couldn't stop him. And Sandy never tried. For he knew what their mothers would say to him if he didn't get them back by supper time.

But if they had followed the noise to the Little Dark Pool, just the other side of the bushes, who do you s'pose they'd have found?

GIRLS SCOUTS TO
MEET IN THE HOME

From Two to Five O'clock All
of the Members and Candi-
dates Are Invited

The Girl Scouts of Paris will have their first meeting in their new home, Blue Bonnet Lodge, this afternoon from 2 to 5:30 o'clock. Every Girl Scout and candidate Girl Scout is invited to be present.

There is still a little work to be done to make the Lodge complete in every detail, but many hands make quick work and everything will soon be in ship shape. There are still a few things needed in the furnishing of the building and if any interested party would like to make a donation of any of these articles, the girls and council would be most grateful: two small tables or stands, a ladder, an old mop and an electric grill are the most pressing needs just at present.

Mrs. Tom Scott, commissioner, Mrs. C. G. Curtis, chairman of furnishing committee or Allene Boyers, Girl Scout director, would be very glad at any time to see that your gift is taken to the Lodge.

RAILROAD BUYS
A PINE FOREST

May Furnish Ties for Extension
of a Line to Paris from
Oklahoma

An inconspicuous Associated Press dispatch two or three days ago stated that the Dierks Lumber company had purchased from N. P. Sanderson and associates of Texarkana 45,000 acres of pine lumber north of Hot Springs for a cash consideration of more than a million dollars.

A citizen of Paris remarked yesterday that this deal probably means much to this city.

The lumber company and associates are the owners of the Texas, Oklahoma, and Eastern railroad from Vallant, Ok., to DeQueen, Ark., and of the line that runs from DeQueen in an easterly direction towards Hot Springs. The purchase of the pine land is believed to mean that as soon as the road can build into Hot Springs to reach the pine forest it will build back from Vallant to connect with other roads. It is possible that the railroad will be extended to Paris to connect with other roads here in order to get through freight.

There has been a rumor for several years that the Texas Midland was figuring on building out of Paris to Vallant in order to get a line to Memphis, Tenn.

HAD DIFFICULT TIME
MAKING AUTO TRIP

B. B. Kinney had a hard time Thursday making a trip to Hugo and back in an automobile. When he got a mile and a half out of Paris he had a blowout. He put a patch on it and proceeded. When he reached Powderly he had another blowout and purchased a new tube. When he reached Arthur City he had another blowout. When he reached Grant, Okla., he had a blowout in the new tube. When he reached Hugo he had the tubes vulcanized.

He had no more trouble, but when he got to Arthur City coming back and turned the lights on they burned out and he had to make the trip to Paris in the dark. He was unable to buy a lantern or a flashlight to illuminate his way.

COMPLIMENTS TO

District Agent Stanford Writes
Mr. North on the Report of
the Work Done

A testimonial to the good character of work being done by County Agent W. G. North in Lamar county is contained in comments on Mr. North's report for September by District Agent J. E. Stanford. Under the rules of the extension department of the A. and M. college the county agents are required to make monthly reports; and observation and comments on the agents' report and work are "to be prepared by District Agent Stanford after careful reading and examination; copy to be attached to agents' reports for file."

Complying with this requirement District Agent Stanford wrote of Mr. North's last monthly report, under date of October 10:

"Taken all in all this report is doubtless the very best one submitted for September in district four and is outstanding in many respects.

"We desire to call attention to the following features:
"1. The community analysis work done in co-operation with R. B. Lancaster, which was very beneficial to Agent North and greatly appreciated by him, and which resulted in putting some new and needed projects in several communities.

"2. The definite field projects planned for 1923 as given in the narrative. This we consider especially important, since this important feature of our work is being neglected by many agents.

"3. The splendid success of the agent in securing a large number of exhibits from the communities for the county fair, which has resulted in creating a much better feeling and a better spirit of co-operation in most of these communities.

"4. The rapid development of the poultry industry that is taking place in Lamar county under the leadership of Agent North."

The First Church of Christ, Scientist, cordially invites you to a FREE LECTURE on CHRISTIAN SCIENCE by Mr. Peter V. Ross, of San Francisco, Cal., Monday evening at 8 o'clock in the church auditorium, corner of Kaufman and South 17th streets. PART OF BRAME STREET
TO BE PAVED

The Central Bitulithic Company was awarded the contract yesterday to pave Brame street from Main to Twenty-second street. The property owners put up their checks and the city will pay for the curb and gutters. They will begin work as soon as the city can get the pipe. An effort is being made to get some out of Dallas.

Under a new policy adopted by the city of Paris, it will not pay any more of the cost of paving the streets. Heretofore the city has paid one-half of the expense, but henceforth it will pay for only the curb and the gutter.

A movement is on foot among the property owners on Thirteenth street to have it paved from Graham to Bonham street.

The concrete was finished yesterday on Price street. The plant will be held here for thirty days on account of the work in Abilene being delayed.

LARGEST TENANT FARMER
IN LAMAR COUNTY

W. S. Cope, who rents the Clement farm a few miles southeast of Paris, is believed to be the largest tenant farmer in Lamar county. He rents 800 acres and had 600 acres of it in cotton this year. He said yesterday that they were about through picking cotton and that they had gathered 125 bales, and have ten bales more to pick.

The weevils and drouth were about equally as damaging to the cotton. They have begun to plow some, but the ground is getting mighty hard.

SAYS FARMERS FIFTY PER CENT BETTER OFF

Rev. J. W. Milligan, of the Unity community, between Globe and Maxey, who is a farmer as well as being one of the most prominent preachers in the county, gives it as his opinion that the farmers in the north part of the county are fifty per cent better off than they were at this time last year, and in better spirits. He says that he looks for times to be still better in next year.

He says that he hasn't a great deal of confidence in the organized movements to get rid of the boll weevil, but that he believes they will let up. Last year the weevils cleaned up the cotton in his section and this year an average of a half a bale to the acre was made. It was because the weevils were not as bad.

If the farmers could have had favorable weather, he said, they would have done still better than a half bale this year. The drouth did as much injury to the cotton as the weevils.

7. Consecration should be confessed before men—Dr. Hunt.
Reading—Mattie Lou Moore.

Returned from Synod.

Dr. B. E. Wallace, pastor of the First Presbyterian church, returned yesterday from Marlin, where he spent the week in attendance at the annual synod.

Next year the meeting will be held at the First Church of Dallas. The various reports showed a notable advance in the year's work and the large attendance showed a real interest in the church's welfare.

One of the notable steps was the gift of a boys' school at Kerrville, the Schreiner Institute, which Mr. Schreiner, the donor, has endowed for \$300,000.

Among the well-known Presbyterian officers present were two secretaries of the general assembly, Dr. H. H. Sweet of Louisville, Ky., and Dr. Henry McMillan of Atlanta, Ga.

S. S. Training School Closed.
The Training School for Sunday School workers which has been in progress at the First Baptist church for the past week, closed last night, with a most successful session.

It was pronounced a most satisfactory

factory undertaking, and many expressions were made in regard to the real value of the work, and the opportunities afforded.

A vote of thanks was unanimously adopted, expressing appreciation for the excellent service of Mr. Russell and Miss Hardin; for the appetizing lunches served by the Y. W. A., and for the courtesy of the Morning News in publishing announcements and making reports of the meetings.

POWER

is absolutely necessary to make a machine run. If something prevents a machine from getting sufficient power, it cannot do its work properly.

The human machine gets its life power from the brain, from which it is dispatched through the spinal cord over the nervous system to every cell in the body. If the lungs, heart, stomach, kidneys, liver, etc., or any part is weak or not working right, something somewhere is cutting off some of the power.

IN MOST ALL CASES THIS POWER IS WEAK BECAUSE OF PRESSURE ON A NERVE WHERE IT LEAVES THE SPINE.

Chiropractic Adjustments remove this pressure and the power gets through. Let us explain more fully how.

KINDLING CATCHES FIRE DOWN IN BASEMENT

Fire caught in some kindling in the basement at the home of Sayers Boyd on South Main street at 4 o'clock yesterday afternoon and did a little damage. There was a considerable quantity of kindling stored and when it got on fire it burned rapidly. The stringers on which the floor rested were burned by the blaze, but it didn't burn through.

The flames broke the glass out on the north side and scorched the side of the house five or six feet up from the basement.

This was the first time that the fireman had an opportunity to use the two gas masks that were recently purchased for the department. The basement was full of smoke from the burning kindling. The firemen took time out using the masks, and the tests was excellent.

MEXICAN DIVORCE SUIT IS WARMLY CONTESTED

The district court was occupied all day yesterday with the trial of a divorce suit in which the parties were Mexicans and there was a large number of witnesses, few of whom could speak English intelligently, although they were above the average Mexicans. Some of them have been living in Red River county near Cuthand, but are now living in Paris and the father of the woman works on the Texas and Pacific section.

The wife brought the suit for divorce and asked that the custody of their 2 1/2 year old daughter be given her. The suit was warmly contested. The hearing of the case was concluded late in the evening but the decision was not reached.

J. H. Crawford, of Chicota, who was in the city yesterday said that two weeks more of the pretty fair weather will about put the farmers through picking in that section of the county.

sectional games again feature the
Eastern football card for tomor-
row with the Yale Iowa and the
Army-Alabama Poly contests as
outstanding clashes. Pennsylv-
ania will meet Maryland, while
Pittsburgh and West Virginia play
at Pittsburgh. In addition there
are several strictly sectional con-
tests which promise to develop
hard close matches in the list of
more than forty contests sched-
uled in the East.

While the football authorities of
both Yale and Iowa have stated
emphatically that the teams have
not been pointed specially for the
East versus West struggle in the
Yale bowl tomorrow, the fact re-
mains that the game is one of the
most important in a long list of
inter-sectional games which will
feature the present season.

Iowa won the Western confer-
ence championship last fall, cap-
turing all five of her league con-
tests and scoring 18 touchdowns
and 15 goals for a total of 123
points.

Yale went through the season
with the loss of but one game,
Harvard winning 10 to 3 from the
Elis; and was ranked fifth in total
scoring among the Eastern teams
with an aggregate of 101 points.

Neither Yale nor Iowa will pre-
sent its strongest lineup tomor-
row will the individual players have
reached the perfection of phys-
ical or playing form to be expect-
ed in the final contest of the year.
Nevertheless, the contest will give
a reasonably accurate idea of the
comparative strength and strate-
gical ability of East and Middle-
western football as played by the
representative universities of the
two sections.

Eastern followers of the game
look for a startling display of the
far famed Western aerial attack.
The same style was expected in the
Chicago-Princeton game of a year
ago Chicago won with a straight
line attack.

Howard Jones, the Iowa coach,
is a graduate of the Yale football
school and knows the Eastern
game as well as his brother, "Tad"
Jones, now gridiron mentor at New
Haven. Howard has the benefit
of playing and planning against
some of the best overhead offen-
sives developed in the West and for
that reason is probably more con-
versant and better equipped with
such plays and defense against
them than the Eli coaches.

The defeat of Notre Dame last
fall by Iowa 19 to 7 indicate that
the forward passing game has no
terrors for the Hawkeyes; since
Notre Dame was conceded to have
the best aerial attack of any team
east of the Rockies. If Iowa is to
be defeated by Yale it will have to
be by a compact attack with the
ball concealed until the last second.
That the Elis have reached this
stage of development is doubted
by close observers.

Little is known in the East re-
garding the strength of the Ala-
bama Poly combination which fac-
es the army at West Point. South-
ern reports indicate that the eleven
is stronger than a year ago and
if such is the case the team should
give the cadets a strong battle.
The army has run up a total of
sixty points in three games against
Springfield, Lebanon and Kansas.

**MISSOURI VALLEY IS
TO HAVE EIGHT GAMES**

KANSAS CITY, Mo., Oct. 13.—
Eight of the football teams in the
Missouri Valley conference go into
action tomorrow. Nebraska alone
has no game scheduled. The first
conference clash of the season was
staged last Saturday between Mis-
souri and Grinnell.

The conference games tomorrow
are the University of Missouri
Ames at Ames; University of Kan-
sas-Drake at Des Moines; and the
Kansas State Agricultural College-
Washington University at St. Louis.
Central Teacher College plays
Oklahoma University at Norman.
Oklahoma, tomorrow and the Okla-
homa Aggies play the Texas Uni-
versity at Austin. Grinnell faces
St. Louis University at St. Louis.

FORTY WINNING PLAYS IN FOOTBALL

By MAJOR EARNEST GRAVES, U. S. Army, Retired
and JOHN J. McEWAN, Head Line Coach at West Point

*PLAY NO. 8

WEST POINT CRISS CROSS

This criss-cross has had a long history of success in the game of
football, dating from the early days. It is the father of all criss-cross
plays.

The play is made from an unbalanced line.
The Left End blocks tackle as indicated.
The Left Tackle blocks the opposing guard.
The Center after passing the ball blocks to the left.

The inside (left) Guard leaves the line and goes around as indicated.
His business is to assist the end on the defensive tackle.

The Right Guard blocks in the line as indicated.
The Right Tackle cuts into the defensive backfield and forms
interference for the runner in case he gets free.

The Right End steps back and gets the ball from the No. 3 Back
at the proper moment.

The Quarterback from his position under the center receives the
ball, turns and passes it to the No. 3 Back for a run off the right
tackle. After passing the ball to the No. 3 Back he completes his turn
and takes out the defensive end on the short side.

The No. 1 Back crashes straight through the line over the place
vacated by the Left Guard. He goes for the defensive backs when he is
through the line.

The No. 2 Back crashes the tackle as if the play were off tackle.
The No. 3 Back receiving the ball from the Quarterback runs to the
right as if to carry the ball off tackle.

At the indicated point he slips the ball to the Right End who
circles the short side as indicated.

When the defensive end happens to be playing in too close this
play is especially effective. The defensive end on the short side often
gets the habit of failing to come across the line of scrimmage promptly
when he thinks that the play is not coming against him. This is the
time to play a criss-cross.

This is a play of deception rather than force, for the interference
is not as strong as usual. If it works at all it usually nets a big gain.

In the Army-Navy game in 1913 this exact play gained sixty yards
at a critical moment of the game and resulted in a touchdown.

HUGGINS TASK WAS HARD ONE

Baseball Stars Are as Hard to
Handle As a Lot of Prima
Donnas

Miler James Huggins will man-
age the Yankees again next season.
Colonels T. L. Huston and Jacob
Ruppert, owners of the New York
American league club, held a long
conference with the little leader
who piloted the Yanks to their
second consecutive American league
pennant this season, only to be
humbled by the Giants in straight
games in the world series.

Immediately after the Yanks
were defeated in the recent post
season series, rumors were circu-
lated to the effect that Huggins
would not be re-engaged. Every
one well known in baseball from
Frank Chance to the Yankees' bat
boy was selected as the "logical
successor" to Huggins. Ruppert
and Huston said nothing, except
that they as yet had not conferred
with Huggins in regard to signing
up again.

Their announcement proves they
were satisfied with the manner in
which Huggins handled the Yanks
during the season just closed and
mean to repose their confidence in
him for another year, at least, if
it is understood that Huggins signed
a contract for only one season.

When the 1922 playing year
started Huggins was not in the
best of health and he was con-
fronted with the stupendous task
of handling the greatest group of
prima donnas ever assembled on
any playing field. His task was
made doubly difficult by the fact
that his star of stars, Babe Ruth,
was under suspension for barn-
storming and was not eligible until
the season was about six weeks old.
Likewise Bob Meusel, one of Ruth's
partners in crime. When this pair
returned to the lineup they were
out of condition and several weeks
elapsed before either was any
help to the club. Subsequently
Ruth drew several short suspen-
sions for misconduct on the field.
Despite this and the failure of
Mays, his pitching ace, to round
to form, the mile manager pulled
his club through to another cham-
pionship.

Since he assumed command of
the Yanks in 1918, coming from
the St. Louis Cardinals, which
club he had managed for several
years, the team has finished fourth
once, third twice, and first two
times. Huggins will rest up at
Atlantic City for several weeks
before undergoing a minor opera-
tion. He then will return to his
home in Cincinnati and plans to
take a short ocean trip before the
next spring training period opens.

**WESTERN CONFERENCE
GETS UNDER WAY TODAY**

(Associated Press)
CHICAGO, Oct. 13.—Football
will get under way in Western
conference tomorrow with games
between Northwestern and Chicago
at Chicago and Minnesota and In-
diana at Indianapolis as a first
contest of the championship race.

Illinois will open the season
against Butler at Urbana while
Oberlin, which defeated Ohio State
last year, will again face the Ohio
team at Columbus. Purdue will
take the field again with the
strong Notre Dame team at La-
Fayette, while Wisconsin will play
South Dakota at Madison.

**FATHER OF THE GIBBONS
BOYS DEAD IN ST. PAUL**

(Associated Press)
SAN FRANCISCO, Oct. 13.—Foot-
ball gets under way in the
Pacific conference tomorrow at
Seattle, where the University of
Washington's rebuilt team meets
the University of Idaho.

All the other teams of the far
Western "Big Eight" play non-
conference games tomorrow.
The champion University of California
eleven plays St. Mary's College at
Berkeley. Stanford University
meets an old foe, the University
of Santa Clara, at Stanford, and the
University of Southern California
takes on the University of Arizona.

WILD CATS WON FROM HUGO HIGH

Consistent Defense with an Ag-
gressive Offense Won for
Paris Team

The Wild Cats handed Hugo
High a neat defeat of 33 to 0 Fri-
day afternoon on the local grid-
iron. The game was no walkover
for the home boys and several
times Hugo advanced the ball for
first down on fake line bucks, end
runs and an occasional pass.

The first quarter found the op-
posing teams struggling to work
the ball by punts to a striking dis-
tance of the goal. From the 40
yard line Lindsay carried the ball
over for the first score and Wright
kicked goal.

During the second quarter one
touchdown was made and three
more during the last half.

Paris, although not as success-
ful on end runs as Hugo, did make
some good gains in this manner
with Gunn or Wright carrying the
ball.

Clyde Antone showed up well and
made one of the five touchdowns.

Bennett, the youthful giant from
Roxton, was a star performer,
making many tackles and passing
the ball beautifully.

Gunn seems to have come up for
air. He played full's position to
a showdown and looks like a good
ma on end runs and line bucks.

Hugo hit the right side of Paris'
line often but met consistent de-
fense in Sheffield who played a
stellar game. Anderson playing
open center made probably more
tackles than any one man on the
squad.

A game replete with penalties
and slow in every respect, it was
a poor game for spectators. But
the Hugo opposition was stiff and
the home boys are due credit for
the steady pounding which licked
Hugo for the first time in the his-
tory of Paris Hi football.

**THE GENERALS TOOK
HOWARD PAYNE TO LOSS**

(Associated Press)
SHERMAN, Texas, Oct. 14.—
Making the lone touchdown by a
short forward pass across the goal
line, Austin College defeated How-
ard Payne College here today, 7
to 0. The Kangaroos brought the
ball to within a few yards of the
goal by straight football and scored
by the short pass from Touchstone
to Slover.

Howard Payne's aerial game was
completely wrecked by the Austin
College defense, a number of times
the passer being downed before
throwing the ball.

**MISKE WAS GIVEN
FIGHT ON FOUL**

Was Hooted as He Left the Ring
While Tom Gibbons Was
Roundly Applauded

(Associated Press)
NEW YORK, Oct. 13.—Tom
Gibbons of St. Paul lost on a foul
to Billy Miske, his fellowtownsman
in the tenth round of their sched-
uled 15 round bout tonight. Gib-
bons had been leading until the
fight was stopped, when Miske
claimed he had been struck low and
could not continue.

The crowd gathered around the
ring and some of the spectators
shouted to Miske to continue.
Gibbons walked to Miske's corner,
but the winner appeared too weak
to acknowledge him. When the
judge's decision was announced the
crowd roared its disapproval and
derided Miske as he left the ring.

When Gibbons started toward
his dressing room, there was a
round of applause.

As he started toward his dress-
ing room Gibbons told a reporter
for the Associated Press that the
blow was a foul but that it was
accidental.

"I don't think it was hard
enough to hurt him much
and I couldn't avoid it as he lurched
when we came together," the
loser said.

Gibbons was far in the lead on
points and had Miske appearing
amateurish when the foul occur-
red. As the tenth round started
both men advanced to the center
of the ring and fell into a close ex-
change, both playing for the stom-
ach. Gibbons turned backward to
get a greater leverage with his
right and as he brought it down
Miske stepped forward and the
blow struck Bill in the groin. He
dropped helplessly to the floor and
Gibbons stepped away.

For a few seconds both the au-
dience and Referee Kid McPhar-
land seemed amazed. Miske sat
on the floor, his face writhing in
evident agony, but it was some-
time before McPharland stepped
over and grabbing Miske by the
shoulders lifted him to his corner.

In the preceding nine rounds of
fighting, Gibbons had out-
muscled Miske's work of his brother
Mike, called the "St. Paul Phant-
om."

He feinted in and out with
amazing dexterity plunging back
now and then to drive a left jab
to the head or to hook both fists to
Miske's body. Gibbons had land-
ed ten blows to Miske's one, yet
the latter was not greatly weak-
ened.

The craftiness of Gibbons made
Miske appear all the slower. Even
when Tom did not duck away Bill
was short with his lungs and in-
accurate at closer range. At times
the crowd giggled at Miske's in-
ability to place his fists on Gib-
bons' body.

ed a trap which shoots gophers

INTERSECTIONAL GAMES IN SOUTH

**Vanderbilt Is to Meet Michigan
and the Game is Expected
to be Good**

(Associated Press)
ATLANTA, Ga., Oct. 14.—More
than a dozen of Dixie's leading
football teams will play tomorrow
in games that will call forth their
most heroic efforts, for in addition
to three intersectional contests that
will have a bearing on title ar-
guments.

Auburn makes its debut north of
the Mason and Dixon's line against the
Army at West Point in what prom-
ises to be one of the most colorful
games of the day, for the Flan-
stien bid fair to prove one of the
best eleven in the South this year
and their followers already are
hoping for victories later over
Georgia and Georgia Tech, which
downed Auburn last season.

Vanderbilt will meet Michigan
at Nashville and the game will
mark the formal opening of the
great stadium on Du Reil field. The
Commodores last season began a
showing of the power of a decade
ago made them all most undisputed
leaders of the Southern gridiron,
but recent injuries have lessened
their chances against the power-
ful Michigan Wolverines. The
meeting between these old time
rivals will mark the skill of "Dan"
McGugin against his former coach,
"Hurry Up" Yost.

The coaches are brothers-in-law,
but their rivalry will not be on a
par with that in Sewanee, Tenn.,
where Sewanee, coached by Her-
bert Stein, plays Oglethorpe,
coached by his brother, Russell
Stein. The Steins are both former
all-American players and Russell

was a member of the Washington
and Jefferson team that played in
the tournament of the roses in
California.

Maryland University play Penn-
sylvania in the third intersectional
contest of the day.

**BOBBY MOORE WAS
IN ANOTHER STORM**

For the second time within a
year, Lieut. "Bobby" Moore, son of
Mr. and Mrs. C. H. Moore of Paris,
has essayed a flight over the peril-
ous waters of the Atlantic to the
south of Florida; the first termi-
nated in the disaster of the "Miss
Miami," of which Lieut. Moore
was the only survivor; but the
second, recently made, ended safely
for boat and pilot.

A West India company pur-
chased six planes, and Lieut. Moore
piloted the first of these from Cape
Hatteras to Porto Rico, a distance
of 643 miles, in five hours and
twenty minutes. In the last
eighty miles of the journey a stiff
wind was encountered, but by fly-
ing as low as possible the danger
was minimized, and the destination
reached without mishap.

Lieut. Moore is in Jamaica and
will remain about three weeks,
carrying mail for the British gov-
ernment.

He has completely recovered his
health since the fateful accident,
and is again in trim for all the de-
mands upon an air pilot's nerves
and resources.

**K. OF P'S TO HAVE BIG
MEETING MONDAY NIGHT**

All officers and members of Sam

be present at the next regular
meeting Monday night, Oct. 16.
The Blossom and Howland lodges
will visit us on this occasion. Bro.
W. C. Holloway, Special Deputy
Grand Chancellor, will be with us
again and we will have work in
all three ranks, after which—some-
thing else. Please do not forget.

LAMAR BOYS HAD PLEASANT TIME

Saw What Was Worth Seeing at Dallas Fair as Result of Their Good Work

County Agent W. G. North and the four boys who were given free scholarships to the Dallas fair for having made the best records in boys' club work in Lamar county have returned from Dallas and report a very pleasant and profitable trip.

The boys in the party were Gailen Igo, Deport; Clarence Rogers, Blossom; Jack Mills, Glory, and Porter Lee, Chicota.

Under the escort of group leaders from A. and M. college the club boys at the fair were given lessons in live stock judging, shown a good time generally at the fair and taken to many places of special interest in the city of Dallas. So well pleased were all of the quartet of club members from Lamar county that they have declared their intention of writing up their trip for the benefit of other boys who would like to know what they saw and did.

(Continued from Page One.)

ance of all children of the proper age for eight months in each year in institutions of learning.

Three of the strongest forces to bring this result would be economy in the State's business, the raising of the teachers' salary and a statute which would make it an offense for a parent, or guardian to keep the child, or ward from attending school.

Fourth. If I were Governor of Texas, I should, as quickly as possible, do away with the present penitentiary system, and put into effect the policy and practice of hiring the convicts, under proper safeguards, to the counties of the State for work upon the public roads. The public highways which connect city and country and county and county and which traverse the State are the chief arteries for the concentration and disposition of the product of the field and factory.

Fifth. If I were Governor of Texas, I should have no jurisdiction over Federal tariffs. And while I am a strict believer in a protective tariff, such tariff to be levied upon the raw product, as well as upon the manufactured product, I would have no power to either make, or unmake such a law, but I should endeavor to have the legislature pass a resolution for the amendment of our constitution authorizing the exemption from taxation, for a fixed period, of factories and industries located in Texas.

Sixth. If I were Governor of Texas, I should studiously endeavor to foster such improvements and changes as would tend to develop a desire for the country and the farm rather than for the city and the office. In other words, we have a wonderfully fine institution at Bryan. Its effective equipment and faculty are the especial pride of those who own the half million farms in Texas.

Seventh. If I were governor of Texas, I should do my utmost to reduce State taxes. I have never been able to understand why our taxes should constantly increase when the value of taxable property is increasing and the number of tax payers is increasing. There is nothing that we get today from our State government that we did not get twenty-five years ago, and yet our State taxes have constantly increased.

In order to bring about a reduction of the tax rate, I should recommend the abolition of all the Courts of Civil Appeals; I should do away with the fee system; I should deny the right of defendants in criminal cases to summon witnesses, at the State's expense, unless the defendants were poor and unable to pay for them, and in such cases I would follow the rule of the Federal court.

I should champion the abolition of every bureau and office and committee and deputy and employee who is at present drawing pay from the State, whose services were not imperatively necessary to the proper administration of the people's business.

Taxation may be called a science but in the language of our common folk it is nothing more nor less than the securing of enough money to pay the debts that the government makes.

Eighth. If I were governor of Texas, I should make it impossible for any sheriff to make money off of any prisoner who was unfortunate enough to be in his charge. I should favor the passage of such statutes as would require the separation of the misdemeanor prisoner from the felony prisoner; of old offenders from the young offenders; and I should favor the institution of such carefulness with reference to the delinquent boy or girl as would result in giving him or her a chance in the world; whether that chance might be brought about through an operation, or examination, or through proper association, he and she would have it.

Ninth. If I were governor of Texas, I should enforce to the utmost of executive power the law of the land. Property should be sacred; and the person of the citizen should be free from any assault, or outrage.

I should endeavor to make the Texas bill of rights a live force. The law should be certain. The law should be swift. The law should be sure. I should not wait until after an election, or until after a primary to make a movement that might lose me votes. For at least two years I should be governor regardless of whether there was a minute of authority to come afterward or not.

Law and order are the right of every one who lives in and under a duly constituted government. There can be no civilization, there can be no advancement, there can be no decency, there can be no security if the law be dethroned, or if its movings are in the slightest degree doubtful.

The chief executive of Texas is given authority over the militia, the rangers, the peace officers; he has at his disposition the treasury; back of him and at each side are millions of the fearless people of this State, able, ready and willing to stand for the right and to uphold the law.

All of these agencies should be like unchained lightning in its swiftness to punish the evil doer, whether he be in high or low position, and whether he openly commit offense in the daytime or whether he make his hide and skulk in the night. Whichever way he does it, and whenever he does it he is a law-breaker and a criminal and he should feel the fist of punishment.

The Turk is unspeakable because of the lawlessness of his country; Russia is disdained because there is no reign of the law there; anarchy is dreaded because it rules red and laughs at authority.

But those conditions are but degrees. The suffering of any violation of the written law, or of any violation of the State or Federal constitutions is a reproach to our history and an insult to our intelligence and the beginning of the undermining of everything that makes for the stability of society.

Tenth. If I were governor of Texas, I should use every possible power that belongs to the office to clear idleness from the State. Whether it be the idleness of the rich or the idleness of the poor is quite immaterial. Any idleness is a vacancy. Any idleness is an evil. Work is the solvent of all problems, whether to the individual or of the government.

Eleventh. If I were governor of Texas, I should do my utmost to promote among the people of this great commonwealth a common pride in its marvelousness and a common inspiration for its glory. There is no place within the boundaries of this State for religious intolerance, or oppression, or boycott, or hate.

We are here but for a little while. We walk the same streets; we travel the same roads; we meet in the same court houses; we vote at the same polls; we breathe the same air; we love the same flag; we stand for the same constitution; and when we die we will be buried in the same earth.

We are Texans, we are Americans, we must not allow our prejudices and our ambitions to convert us into fiends and enemies and jealous bigots.

May each of us be strengthened to stand for the right.

Twelfth. If I were governor of Texas, I would feel no compunction of conscience when I took the oath that I would "support, obey and defend the constitution of the United States and the constitution of the State of Texas, and that I would discharge the duties of my office with fidelity." I would enter the great granite capitol at Austin without the slightest feeling of uneasiness, or malice, or prejudice toward anyone, ambitious to serve my people and the great State that had mothered me for half a century.

DEATHS

Mrs. W. C. Rodgers

The remains of Mrs. W. C. Rodgers arrived last night from Hudson, Kan., and the funeral will be held at the home of Mr. George N. Rodgers, 129 South Twenty-Sixth street this afternoon at 3:30, and interment will be made at Evergreen.

The service is to be conducted by Elder F. L. Young of the Lamar Avenue Church of Christ, and the Rev. P. B. Wells, of the First Methodist church.

Mrs. Wilkins Funeral

The funeral of Mrs. Mary Wilkins yesterday morning was held at the home of her daughter on North Main street and was attended by several friends and relatives from Hugo, Okla., and other places. Oscar Landrum, a nephew came from Mansfield, Ark., to attend.

SOME RIVER BOTTOM COTTON TO OPEN YET

W. J. Brown, of Direct, who has a farm in the river bottom, said yesterday that there is a little cotton to open yet in his country. It is not cotton, however, that has just been made and is not matured, but rank bolls that have been shaded and have not had a chance to open on account of the sun not getting to them.

SHARP GAINS MADE IN COTTONSEED OIL

(Associated Press)

NEW YORK, Oct. 13.—The strength of the crude position was again reflected in cotton seed oil operations today and futures made sharp gains, closing 15 to 25 points higher. The seed movement is reported below normal and the south is holding for still higher prices. Sales 11,900 barrels; prime crude 7.25 and 7.50; prime summer yellow spot not quoted; October 8.30; December 8.57; March 8.77; all bid.

BUYING OF WHEAT FOR SEABOARD ACCOUNT

CHICAGO, Oct. 13.—Active buying which appeared to be largely for seaboard account had much to do with the bringing about of higher prices for wheat. The market closed firm at 1½ to 1 cent advance, with December 1.09½ @ 1.09¾ and May 1.10½ @ 1.10¾. Corn closed 1.01½ and oats 1.01½. In provisions there was a net decline of 2 cents to 2½ cents. Gossip that 1,500,000 bushels of Canadian wheat and considerable United States wheat had been purchased for Europe did a good deal to uphold values in the later trading. Another bullish factor as to wheat was the independent strength which the corn market showed from the outset.

Corn and oats were traded in on a broad scale, with some new high price records for the season being

ALL OFFERINGS WERE ABSORBED

Reports from the Mill Centers Were Regarded as Being Most Favorable

NEW ORLEANS, Oct. 13.—Buying pressure was felt in cotton today during the greater part of the session; and while there were periods when hedge selling was very heavy and when large realizing sales came from the long side, all offerings were easily absorbed at rising prices so that the highest quotations came late in the day.

At the highest the more active months were 47 to 54 points over the close of yesterday; last prices were 42 to 51 up on a very steady tone. December traded as high as 21.80 and closed at 21.75 cents a pound.

The weather disturbance reported by the weather bureau in tropical waters, and accompanied by warnings for the central and the eastern portions of the Gulf of Mexico was the strongest influence of the day, although better cables than due helped to make a higher opening.

Private messages from Fall River estimating the week's sales of print cloths there at 300,000 pieces favorable reports from the other cotton goods centers, bullish accounts from the interior of the belt regarding picking and ginning and the state of the spot demand, all helped to sustain the values.

Realizing by the longs increased following the posting of the weekly statistics as mill takings were put at only 270,000 bales against 339,000 this week last year, but these sales were readily absorbed by a demand which many brokers said seemed to come from both trade and investment sources.

SHARP GAINS MADE IN COTTONSEED OIL

(Associated Press)

NEW YORK, Oct. 13.—The strength of the crude position was again reflected in cotton seed oil operations today and futures made sharp gains, closing 15 to 25 points higher. The seed movement is reported below normal and the south is holding for still higher prices. Sales 11,900 barrels; prime crude 7.25 and 7.50; prime summer yellow spot not quoted; October 8.30; December 8.57; March 8.77; all bid.

BUYING OF WHEAT FOR SEABOARD ACCOUNT

CHICAGO, Oct. 13.—Active buying which appeared to be largely for seaboard account had much to do with the bringing about of higher prices for wheat. The market closed firm at 1½ to 1 cent advance, with December 1.09½ @ 1.09¾ and May 1.10½ @ 1.10¾. Corn closed 1.01½ and oats 1.01½. In provisions there was a net decline of 2 cents to 2½ cents. Gossip that 1,500,000 bushels of Canadian wheat and considerable United States wheat had been purchased for Europe did a good deal to uphold values in the later trading. Another bullish factor as to wheat was the independent strength which the corn market showed from the outset.

Corn and oats were traded in on a broad scale, with some new high price records for the season being

MOTHER GAVE IT

Virginia Lady Suffers With Aches and Pains Until Mother Began Giving Her Cardui

Dublin, Va.—Miss Mary Alice Hughett residing on Route 2, near here, recently told a visitor of her interesting experience with Cardui. Miss Hughett said: "I had been suffering for some time with painful... I was just what I needed. It regulated me. I began to eat and couldn't rest. I would suffer once a month with my back, sides and head. My limbs would ache and I didn't know what to do, but I knew I must do something, for I didn't get well by 'letting it run on'."

"My mother is a believer in Cardui, for she saw what it did for others as well as herself, so she began giving it to me."

"It wasn't long before I saw a change. It was just what I needed. It regulated me. I began to eat and couldn't rest. I would suffer once a month with my back, sides and head. My limbs would ache and I didn't know what to do, but I knew I must do something, for I didn't get well by 'letting it run on'."

"Cardui is without doubt the best female tonic made, and I am glad I can recommend it to others."

If suffering with symptoms such as Miss Hughett mentions, or other ailments peculiar to women, why not begin Cardui at once? Its merit is well established by successful use for more than 40 years.

and active. Wool dress goods also moved higher. Silks showed much firmness, but agents generally complained of the rise in raw silk and resistance on the part of retailers to paying the higher prices wanted for fabrics. Knit goods were more active.

RAW SUGAR FIRM WITH PRICES HIGHER

(Associated Press)

NEW YORK, Oct. 13.—The raw sugar market was firm and active today with prices 1-8 cent higher to the basis of 3 3-4 cents for Cuban cost and freight, equal to 5.53 for centrifugal. There were sales early in the day of about 9,000 bags of Cuban to an operator at 3 1-2 cents fob, equal to about 5.40 delivered here and later some 200,000 to 225,000 bags sold to local refiners at 3 3-4 cents cost and freight, equal to 5.53 for centrifugal.

Raw sugar futures were active and prices during the early operations showed gains of 3 to 5 points on active positions on renewed covering by December shorts and scattered commission house buying, closing October 3.70; December 3.57; March 3.14 and May 3.24.

The market for refined sugar was firmer in sympathy with the raw and prices were 15 to 25 points higher, with fine granulated listed at from 6.80 to 6.90. Refined sugar futures nominal.

BUTCHER CATTLE WERE IN DEMAND

(Associated Press)

FORT WORTH, Oct. 13.—An active market prevailed in the butcher stock division of the cattle yards Friday, and other classes of cattle sold with more freedom than usual. On all kinds prices called steady. Receipts amounted to about 2,500 head of cattle and 1,500 calves. Steers of fairly good quality sold around 5.20 to 5.50.

PACKERS ARE A DIME UNDER THE SHIPPERS

(Associated Press)

FORT WORTH, Oct. 13.—Only three cars of hogs were here at a seasonable hour. One car went to a shipper at 9.15, a price that was called steady. Two cars sold to packers around 9 cents lower, their top being 8.9. Bulk sales ranged from 8.75 to 9. Receipts amounted to 500 head.

MUST PAY NORWAY TWELVE MILLIONS

Tribunal Awarded That Sum
for the Ships Requisitioned
by Uncle Sam

(Associated Press)
THE HAGUE, Oct. 13.—Norway has been awarded approximately \$12,000,000 by the arbitration tribunal which for several months has been considering the controversy between the United States and Norway involving claims growing out of the requisitioning of Norwegian vessels by the United States during the war.

The award was made known today and the American arbitrator, Candler P. Anderson, who did not attend today's sitting, communicated to the secretary-general of the tribunal and the agents of Norway and the United States his opinion that the terms of submission had been violated and that the tribunal had exceeded its jurisdiction as outlined by the special agreement under which the shipping dispute was submitted to arbitration.

Notice was served by William C. Dennis the American government's agent, that he reserved for his government all the rights arising out of the plain and manifest departure of the award from the terms of submission and from the essential error by which it is invalidated.

The grounds on which the American arbitrator and agent claimed the terms of submission had been violated were not presented to the tribunal, but it was said by those conversant with the case that one of the principal reasons was the alleged disregard of the provisions of The Hague convention of 1907, requiring arbitrators to state the reasons for each award made.

From the beginning of the present trial it was said that both sides to the arbitration as well as the tribunal itself agreed to be bound by The Hague conference.

was the only requisition order ever issued, merely requisitioned ships then completed and materials for uncompleted vessels.

Norway, on the other hand, claimed the United States requisitioned not only ships and materials, but also contracts and claimed compensation for their marketable value. Moreover, Norway claimed that the requisition order did not become effective until October 6, 1917, at the conclusion of the negotiations between the United States and the special Norwegian commission headed by Dr. Fridtjof Nansen.

COOPER BANK WAS GIVEN JUDGMENT

Land Loan Case on Trial in District Court Resulted Favor of Plaintiff

COOPER, Oct. 13.—In district court Friday the case of Security State bank vs. C. R. Dawson et al was decided for the plaintiff. This case grew out of the Farmers National bank loaning C. R. Dawson some money to buy real estate in another county, Dawson securing the loan with his homestead in Delta; but when he gave a deed of trust on the Delta land and moved to his new home in another county then his homestead was in the county to which he moved, no matter if he did lose the land in the other county and return to the Delta county property, so seems to be the court's ruling.

All cases on the jury docket that Judge Phillips was qualified in have been tried this week. He takes up the non jury docket Saturday and Sunday he will leave for Sherman to exchange benches with Judge Hare. Judge Hare comes to Cooper Monday and takes up the cases that Judge Phillips was disqualified in. Among the cases are some bank cases that have been on the docket for some time and involve a great deal of interest.

ROXTON SCOUTS SAW THE CIRCUS

Were the Guests of Scout Commissioner Tom Watson and Had a Good Time

ROXTON, Oct. 12.—All "dressed up" and with a smile on their faces about twelve Boy Scouts stood waiting in front of Walter Bywaters' drug store last night for their Scoutmaster, Tom Watson, who was going to take them to Paris to see the big circus.

Although these boys picked their "scout" cotton willingly without pay, they feel now that they have received double pay through many great treats from the headmaster. Every Scout stands by Mr. Watson and when he makes various plans and suggests them to the Scouts, they are for 'em.

The Scouts returned from the circus last night and this morning each has an interesting story to relate about his good time. No doubt every Scout will be in the cotton patch next season.

PASSENGERS TO EAT AT H. GROVE

Roberts Hotel Has Been Designated as the Official Stop-Ping Place

HONEYGROVE, Texas, Oct. 13.—Mrs. F. E. Clark went to Paris this morning where she will spend the day.

Rev. Ira C. Kiker went to Dallas yesterday where he spent the day on business.

While in Dallas the first of the week Mr. Robert Pyron of this city had the misfortune to lose a Ford coupe, while it was parked at the State fair grounds. Mr. Pyron had gone over to see the A. and M. football game and had his car parked near the stadium.

On his return from the game the car was gone. The police were notified immediately, but have not yet succeeded in locating the car. Mr. Pyron has just purchased the car about a week ago and the loss is felt keenly by him.

The fourth fire alarm in the 24 hours was turned in here yesterday afternoon from the Gose wagon yard on the southeast corner of the square. The fire originated in the feed barn where there were several hundred bushels of corn. Owing to the building being sheet iron the fire did not spread and the department extinguished it in a short time even though it had gained considerable headway. A good deal of damage was done to the building and contents, but it was covered by insurance.

The cotton receipts for this city up to last night was reported at 9,500 bales. This does not include round bales. The Woods-Bomar Gin Company here have been ginning round bales here for the past week or more, and something like 500 bales have been ginned, which would add 250 bales to the receipts.

Quite a number of the Honey Grove high school football team went to Denison this afternoon to see the Denison and Whitefright teams play. The Honey Grove boys do not have a game this week but will meet the Denison eleven at Denison next Friday afternoon. Several of the team witnessed the game between Paris and Hugo, at Paris.

The Texas and Pacific railway have announced that effective on October 22 the new through train between Fort Worth and Texarkana which arrives here at 12:45 noon, westbound would stop here 20 minutes for dinner, the Roberts Hotel being designated as the eating station. An effort was made some time ago by the T. and P. to change the eating house to this city from Bonham, but the change was not effected at that time. The Roberts house has an enviable reputation among the traveling public on account of the fare served, and for this reason the change was made.
